Office of the Deputy Commissioner,
Tumkur District,

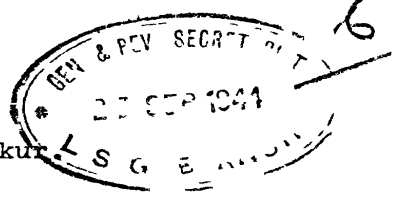
From

The Deputy Commissioner,
Tumkur District, Tumkur.



To

The Secretary to Government,
Law Department, Bangalore.

Sir,

With reference to your letter No.L.1585/Ml.125-44-2 dated the 12th August 1944 regarding the instructions of the Dewan in the matter of prevention of haphazard construction of buildings on the sides of the Town Hall road in Tumkur, I have the honour to state that S.No.111 belong to the Methodist Mission adjacent to the Middle School building is being used as a Timber Yard contrary to the condition that it is to be reserved as a recreation - ground for school children. Rev (Brokbask) who is in charge of the Methodist Mission was addressed to have the timber stocked on the land removed and a copy of his reply received is enclosed for the information of Government. Further action is being taken to have the timber removed

and to keep the place open as a play ground. Action has also been taken to include the remaining survey numbers on either side of the road in the list of lands in respect of which Government has been moved separately for the issue of a notification under section 110 of the Bijapur Town Municipalities Act.

I have the honour to be,
Sir,
Your most obedient servant,

[illegible]
Deputy Commissioner,
Dharwar District.

Letter No.P.178/44 dated 17-8-1944 from the Superintendent, Methodist Mission, Tumkur to the Deputy Commissioner, Tumkur District.

With reference to your letter No.A2.All.7/43-44 dated 7th August 1944, I have [illegible] to assure you that the Mission Authorities have only one intention in regard to S.No.111, Tumkur Kasaba, that is:- this land shall be used for Educational Purposes only. The explanation for the timbers put there is as follows - When I took charge in 1938, I was not informed that this S.No.111, had been converted to Educational purposes. The Shanbhog came year by year, and claimed the Kandaya, as if it had not been converted. The owner of the saw-mill asked us to allow him to place some timbers there. We did not imagine he would place so many timbers. Later, when I discovered the land had been converted, I officially told him the land could not be used in that way. Again, in writing, I have informed him that the logs must be removed. It was never our intention to have this land used as he has done. We did not know that he had made it into a fuel depot. This was done without our knowledge, or permission.

Some time ago, he begged us to sell him a small strip of land, at the back, so that he can build a straight wall to enclose his saw mill This small piece does not in any way diminish the usefulness of the remaining land. And full conversion fine will be paid for this small strip, if it has not already been paid. It should have been paid. Having received your letter, I will send another official notice to the owner of the saw-mill, informing him again that he must remove all the timbers without any more delay.
